DISCOVER THE
BIKE ASSISTANT

1 / Discover and Connect

Download the app

By typing « haiku bike » on the search bar of your app store (on iOS and on Android).

Pair your phone with HAIKU

- Go to the Bluetooth settings of your phone
 - Run it «on» if it is not already
 - Find and tap the device called « HAIKU XX:XX »
 - Follow the pairing process and enter the password that appears on HAIKU
- HAIKU will now connect your phone each time the Bluetooth is on.

Do not forget GPS

In order to use HAIKU, you will have to set the GPS «on» on your smartphone in the proper setting menu.

Check on the app!

To be sure that both Bluetooth and GPS are running good, you can check the two green (or gray if not OK) icons that are displayed on top of the HAIKU app interface.

Sometimes...

You may have to go in the «applications settings» (iOS) to allow Haïku to use GPS and Notifications.

2 / Configure

ON THE HANDLEBAR

Choose the right strap!

HAIKU is delivered with three straps of different length. The small one fits all bike handlebars, the medium one is for stems and covered bars, and the large one is for plastic fairings.

Install the Dock

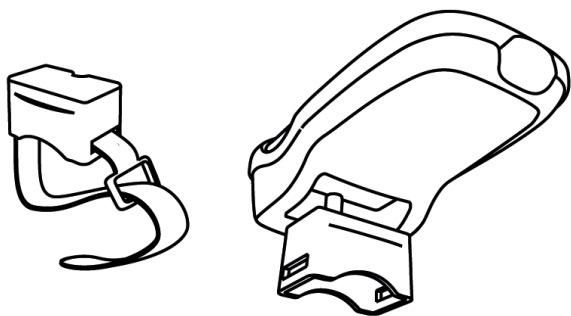

Choose the location of your HAIKU and fit the dock in the right place by pulling the strap tight on itself. Be sure to have the rubbered layer in contact with the bar.

Remember...

HAIKU has to be oriented depending on its screen (you can set it up in the app settings). Then your dock have to be place the right direction (corresponding to the display).

Remember...

HAIKU has to be oriented depending on its screen (you can set it up in the app settings). Then your dock have to be place the right direction (corresponding to the display).

IN THE HAIKU APP

A / Navigation

To launch a navigation, just tap the appropriate button on main page and set it up ! In the «settings», you can choose between various navigation profiles (bike fastest, bike shortest, etc).

B / Notifications

HAIKU automatically displays SMS and call notifications. You can switch off or add other kind of notifications you want in the «settings».

C / Statistics

In the «settings», you can:

- choose the organization of the statistics screens (see statistics screen #01 and statistics screen #02 beside)

- set up the length format (meter / mile)

Statistics are automatic and your ride will be logged in «Rides», even if you do not launch navigation in parallel.

For any more info : check our FAQ at www.haiku.bike !

Before using HAIKU, please thoroughly read this manual and keep it for future reference.

3 / Ride

Before riding:

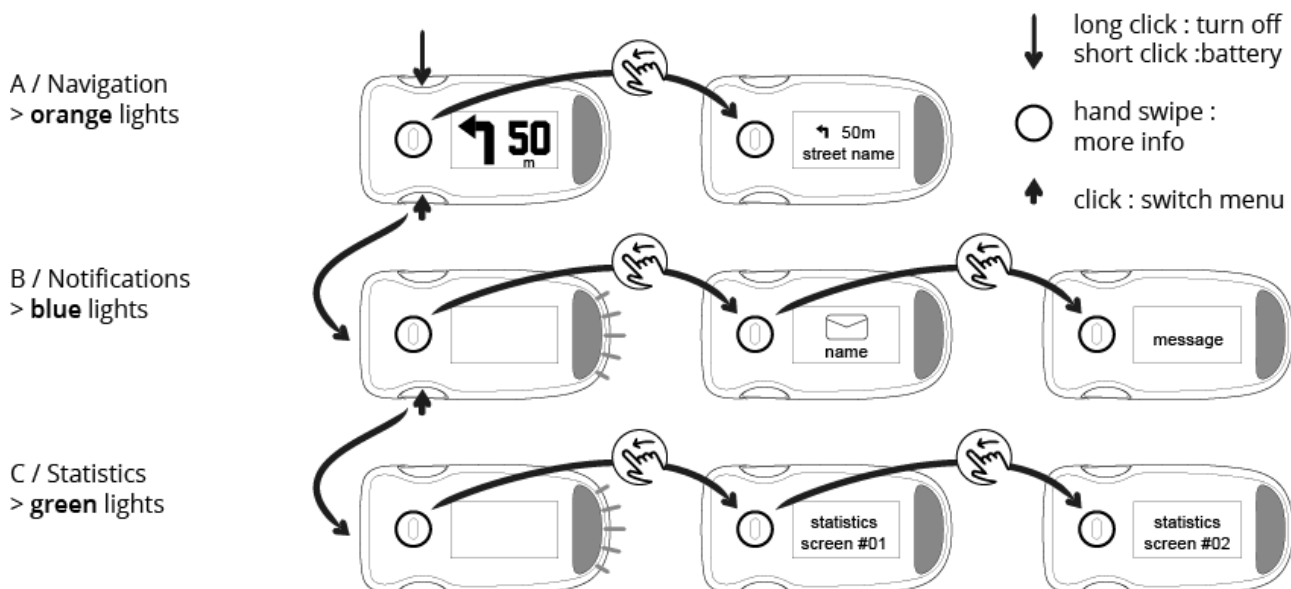

You will have to be sure that the app is launched. If it is off or killed, HAIKU won't work.

Please read the «USER WARNING» before riding.

Ride with the information you need:

- 1 Plug HAIKU on its magnetic dock
- 2 Set up a destination on the app
- 3 Launch navigation
- 4 Just ride !

HAIKU screens

4 / Warning & Contact

USER WARNING:

Do not attempt to enter route information or adjust the settings or your device while riding.

Position your device safely, out of the way of your brake levers and make sure it does not obstruct your vision.

Find a method to use the device that is not distracting to you, and remain as cautious as you would be without the navigation device.

You are responsible for making sure the road is safe to travel on. We are not responsible for errors generated by unreported road works or inclement weather.

Failure to pay full attention to the operation of your vehicle could result in death or personal injury or damage to your property.

You assume total responsibility and risk for using this navigation device.

**OPERATE
AT YOUR
OWN RISK**

5 / Other Information & Warranty

FCC compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications made to this device that are not expressly approved by Asphalt Lab may void the user's authority to operate the equipment.

FCC Label

To find the FCC ID (e-label), turn on HAIKU and push the two physical buttons during 5 seconds.

Recycling HAIKU

HAIKU has to be collected separately from household rubbish and placed into designated recycling bins in shops or other recycling points.

Call your local waste administrator to know more about legislations and to find nearest recycling facilities.

Warranty disclaimer:

This Limited Warranty applies to physical goods, and only for physical goods, purchased from Asphalt Lab.

What does this limited warranty cover?

This Limited Warranty covers any defects in material or workmanship under normal use during the Warranty Period. During the Warranty Period, Asphalt Lab will repair or replace, at no charge, products or parts of a product that proves defective because of improper material or workmanship, under normal use and maintenance.

What will we do to correct problems?

Asphalt Lab will either repair the Product, using new or refurbished replacement parts.

How long does the coverage last?

The Warranty Period for Haiku is two years from the date of purchase. A replacement product or part assumes the remaining warranty of the original or two years from the date of replacement or repair.

What does this limited warranty not cover?

This Limited Warranty does not cover any problem that is caused by extreme or non suitable usage, conditions, malfunctions or damage not resulting from defects in material or workmanship
What do you have to do?

To obtain warranty service, you must first contact us by email to determine the problem and the most appropriate solution for you: contact@asphalt-lab.com
Then if you have to send the product back to us, please fill the lines below and send the paper with your product:

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
